

IMPORTANT INSTRUCTIONS:

Lower window of vehicle and attach the Sport Streamer flag securely to the vehicle's window by pushing down on the window clip against the window. Make sure the window is all the way inside the clip. Raise widow completely and make sure the **window is locked and all other windows with flags are locked**. Double check and make sure all Sport Streamer flags are secure and tight. Do **NOT** lower the window while the vehicle is moving or the Sport Streamer flag will fall off.

Do NOT drive over 40 miles per hour using this product. Sport Streamers flags are **NOT** recommended for highway or interstate use at speeds over 40 miles per hour. Take the Sport Streamer flags off your vehicle before entering highways or roads with speed limits over 40 miles per hour.

NOTE: The space from the top of the window to the roof of the vehicle is different for each vehicle and the bottom streamers may flap against the roof or side of your vehicle. These bottom streamers can be trimmed with a scissor if they are flapping against your vehicle and causing noise or smudges or wear/damage to your vehicle.

Sport Steamers flags are made of durable, weather resistant material, but some wear and tear is to be expected over time. If the ends of the streamers become worn, they can be trimmed with a scissor.
